

RAV 4 3dr 2000 – 2006 *Our ref: H0347*

Before ordering your Bootliner and Optional Extras, please read the following guidelines.

REAR SEATS FOLDED UP

STANDARD BOOTLINER

- The rear seats must be folded up to sit behind the front seats.
- You will not be able to use the rear seats.

REAR SEAT FLAP

- You do not require a seat flap.
- The folded up rear seats are protected by the standard Bootliner's front panel.

REAR PLUS + REAR SPLIT

- The rear seats would need to be removed to benefit from these options.
- Please note this is only a modified version of the Standard Bootliner. There are velcro seams in the two front corners which allow the front panel to lie flat with the floor, when the rear seats are removed.

(NOT all of the floor will be covered. No additional coverage to the exposed sides and front seats.)

Great for that occasional trip to the tip or to accommodate a longer load than normal

You **CANNOT** have the rear seats upright when the Bootliner is fitted!
