

Peugeot 407 SW – 2004 – 2011

Our ref:H0416

Question 1 – Safety Net

H0416-SNIN

AVAILABLE

Load Safety net fixed to back of rear seats

The boot liner panel that sits against the back of the seats finishes just under the cassette and fixes to the under face of it. **You cannot remove the cassette whilst using the boot liner.** The seat flap will only suit a Rear Plus or Split

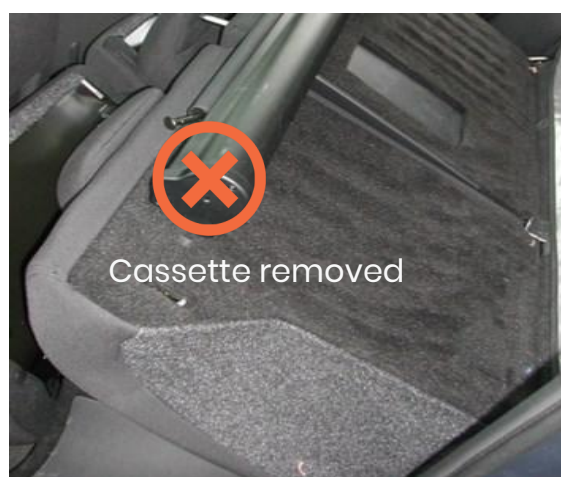

H0416-SNOUT

AVAILABLE

Load Safety net removed

The boot liner covers the entire height of the rear seat backs and attaches to the headrest posts.

You cannot use the cassette whilst using the boot liner

IMPORTANT ATTENTION

Do not confuse a Load safety net with a Load cover cassette. The Load cover cassette also sits behind the rear passenger seats. This cover can be pulled across the load area to hide the boot contents. All versions of the boot liner will accommodate this cover

Please note these images are non specific to your car

Question 2 – D – Ring

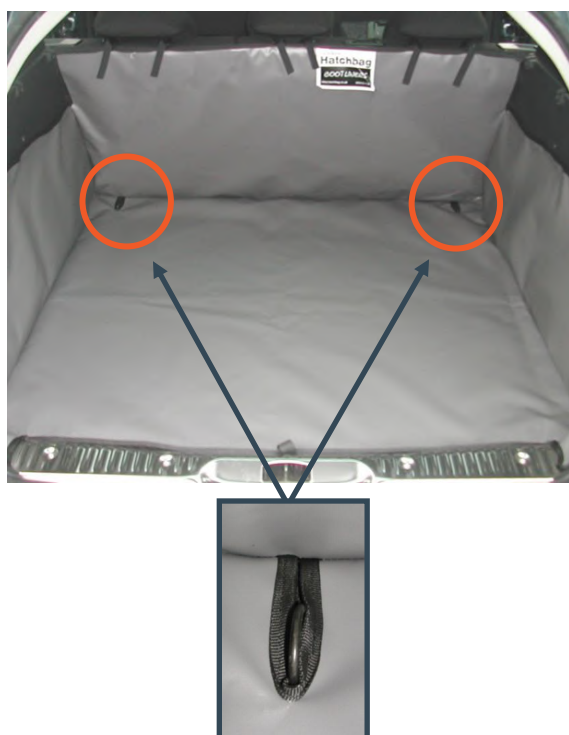

H0416-DGMA

AVAILABLE

D-Ring access for some dog guards

The boot liner base will have 2 bound slots exposing the 2 D-Rings behind the rear seats.

H0416-DGNO

AVAILABLE

NO D-Ring access
No dog guard

The boot liner does not have access to the 2 D-Rings behind the rear seats
