

## SEAT IBIZA ST (Estate)

2010 on

Our ref: H0505

### PACKING REQUIREMENTS

- BOOTLINER**  
Minimum of 20 self-adhesive loop fastener tabs  
2 lengths 20mm wide self-adhesive loop fastener:  
330mm + 180mm
- REAR DOOR COVER**  
Minimum of 21 self-adhesive loop fastener tabs

### PREPARATION

- Remove the load cover. It may be replaced later
- Unfold the Hatchbag and place in the vehicle so that the base fits snugly in position. The panel with the Hatchbag label sits against the back of the rear seat.

### VERY IMPORTANT PREPARATION

To ensure a good bond, when using the self-adhesive hook & loop fasteners to attach the Bootliner to the plastic / metal trim (**Not** the carpet); it is most important to remove silicone film from the vehicle trim. Silicone is applied during manufacture and can also be found in many valeting products. It is **highly likely there will be a build-up of silicone**. Before applying any self-adhesive fastener pads, the surface **MUST be thoroughly** cleaned using a silicone remover. (The fasteners cannot be used once it has been in contact with silicone). We recommend "Intensive Tar Remover" made by AutoGlym and available from Halfords. Wipe off thoroughly **any residue with a separate clean dry cloth**.

Unfortunately we are unable to supply this product, as it cannot be transported via our postal carrier.

**NOTE:** the adhesive takes 24hrs to reach full adhesion, do not disturb during.

### BASE

- Position the base snugly into place. Start at the tailgate end. The hook fastener welds will attach directly to the carpet.
- Use the self-adhesive loop fasteners to attach the back flaps to the tailgate plate.
- Attach the self-adhesive loop fastener tabs to the hook fastener on the liner. Peel off protective backing, reposition panel and apply **FIRM** pressure at tab location points to ensure maximum adhesion to structure.

## FITTING FRONT

- Hook & loop fastener straps align to headrests.
- Pass around each post and fasten back onto themselves.
- The hook fasteners welded to the reverse face of the liner will attach directly to the carpet on the back of the seats.

## REAR PLUS VERSIONS

- **YOU MUST UNFASTEN THE HOOK & LOOP FASTENER + THE HEADREST STRAPS BEFORE YOU RECLINE THE REAR SEAT UPPERS ( Please refer to REAR PLUS options on website to see detailed photo' )**

## SIDES

- Carefully position the side panels snugly into place.
- Use the self-adhesive loop fastener to attach the side to the plastic trim. Attach the self-adhesive fastener tabs to the hook fasteners on the liner. Peel off protective backing, reposition panel and apply **FIRM** pressure at tab location points to ensure maximum adhesion to structure.
- The two cut lengths of self adhesive fasteners are for the front end of the side panels.
- 4 of the fastener welds at the tailgate end will attach directly to the carpet.

(These photos are non-specific to your vehicle)

## OPTIONAL EXTRAS

### FREQUENT USE KIT

If you frequently remove/fit your Boot Liner from/to your vehicle please note that the carpet on the floor and seat back will “fluff” up – we have an alternative “Frequent Use Fitting Kit”

The Frequent Use Kit is available to buy from our “on-line” Factory Shop – simply add it to your order from the Factory Shop.

*(These photos are non-specific to your vehicle)*

## TAILGATE COVER

- Use the self-adhesive loop fastener tabs to attach the cover to the plastic trim.

## SEAT FLAP

- The Seat flap is designed to protect the top of your rear seat giving additional protection from drooling dogs etc.
- The Seat Flap can also be used in conjunction with the **Rear Plus** Option(s). With the rear seats in the folded position the Seat Flap extends the coverage over any exposed section of the seat backs and the headrests
- Attach the Seat Flap to the loop fastener strip that has been manufactured into the Boot Liner just below the top of the rear seats.
- The flap is then placed over the rear head rests and down the back of the passenger seats.
- If the Seat Flap sits over large headrests and obstructs your rear view: carefully create openings in the flap to accommodate the headrest posts.

## BUMPER FLAP

- Fit Bootliner
- Attach the Bumper Flap to the loop fastener strip that has been manufactured into the base of the boot liner.
- The Bumper Flap either folds into the vehicle OR can be detached and stored elsewhere when you close the tailgate.
- Please note that the edges of the fabric are not bound so that any mud, dirt or water can run off.
