

Peugeot 5008 – 2010-2017 Our Ref HO506

2 variations available, please take time to consider which of the 2 most suits your requirements.

I: BACK

Row 2 seats slid as far back to the tailgate

The 3rd row foot well covers must be down to prevent heavy loads putting tension onto the liner over the recessed foot well

These will prevent the use of the 2 tie down "D" rings positioned under the cover.

I: FORWARD

Row 2 seats slid as far forward to the front of the vehicle

The 3rd row foot well covers must be down to prevent heavy loads putting tension onto the liner over the recessed foot well

The 2 tie down "D" rings are left exposed. These are sometimes used with dog guards or load retaining nets.
