

## Skoda Fabia Hatch 2015 on

Our ref.: H0602

### PACKAGING REQUIEIMENTS

#### BOOT LINER

- **2x 490mm** 30mm wide self-adhesive loop fastener
- **2x 690mm** 30mm wide self-adhesive loop fastener

#### REAR DOOR COVER

- **25 x tabs** self-adhesive loop fastener

### VERY IMPORTANT PREPARATION

To ensure a good bond, when using the self-adhesive hook & loop fastener to attach the cover to the plastic trim it is most important to remove silicone film from the vehicle trim. Silicone is applied during manufacture and can also be found in many valeting products. It is **highly likely there will be a build-up of silicone**. Before applying any hook & loop fastener pads, the surface **MUST be thoroughly** cleaned using a silicone remover. (The hook & loop fastener cannot be used once it has been in contact with silicone). We recommend "Intensive Tar Remover" made by AutoGlym and available from Halfords. Wipe off thoroughly **any residue with a separate clean dry cloth**.

**NOTE:** the adhesive takes 24hrs to reach full adhesion – do not touch during.

### STEP I. PREPERATIONS

- Remove the load cover. It may be replaced later.

## STEP 2. FITTING BASE

- Place the boot liner into the car boot with the Hatchbag logo at the seat end. Flatten the base so it fits snugly against the edges. The hook fastener welded to the reverse face will fasten directly onto the carpet. (image A)

## STEP 3. FITTING THE FRONT

- PLUS / SPLIT VERSION ONLY - fasten the hook & loop fastener between the side panels and seat panel. (image B)
- Starting with the outside headrests, loop the hook & loop fastener straps around both headrest posts. (image C). Make sure to hold the front part of the base in position as not to pull the Hatchbag too far up. Attach centre of the front panel to the seatbacks using the hook fastener welded on the reverse side of the panel. (image D).

### REAR PLUS VERSIONS

You MUST unfasten the hook & loop fastener + the headrest straps before you recline the rear seat uppers. (Please refer to REAR PLUS / SPLIT options on website to see detailed photo)

## STEP 4. FITTING THE SIDES

- Place the near-side boot liner pocket into the plastic side pocket so that it fits snugly. (Image E).
- Attach the 490mm self-adhesive loop fastener strips to the top inside edge of the recess on the boot sides. (Image F). Snip the hook & loop fastener in the corners to ease them around the plastic panel.
- Fasten the hook fastener sewn onto the top edge of the boot liner to the previously attached loop fastener.

## STEP 4. FITTING THE BACK

- Stick the 690mm long self-adhesive loop fastener strips onto the ridged plastic panel located on both sides of the tailgate end of the boot. Snip the hook & loop fastener strip to ease it around the bend. (Image G and H)
- Attach the hook fastener welded onto the underside of the boot liner to this loop fastener.

# OPTIONAL EXTRAS

Please note the following photos are non-specific to your vehicle

## STEP 5A. SEAT FLAP

- The Seat flap is designed to protect the top of your rear seat giving additional protection from drooling dogs etc.
- The Seat Flap can also be used in conjunction with the **Rear Plus** or **Split** Option(s). With the rear seats in the folded position the Seat Flap extends the coverage over any exposed section of the seat backs and the headrests
- Lower the headrests
- Attach the Seat Flap to the loop fastener strip that has been manufactured into the boot liner just below the top of the rear seats. (image 1)
- The flap is then placed over the rear head rests and down the back of the passenger seats. (image 2)
- If the Seat Flap sits over large headrests and obstructs your rear view: carefully create openings in the flap to accommodate the headrest posts.

## STEP 5B. TAILGATE COVER

- Line up the tailgate cover with the tailgate and clean the areas where the self-adhesive loop fastener tabs will be stuck. (image 4)
- Use the self-adhesive loop fastener tabs to attach the cover to the plastic trim.

## STEP 5C. BUMPER FLAP

- Fit boot liner
- Attach the Bumper Flap to the loop fastener strip that has been manufactured into the base of the boot liner.
- The Bumper Flap is one standard length for all models. Trim the length to suit your requirements. Ensure you do not cut through the stitching
- The Bumper Flap either folds into the vehicle OR can be detached and stored elsewhere when you close the tailgate.
- Please note that the edges of the fabric are not bound

## OPTIONAL EXTRAS page 2

*Please note the following photos are non-specific to your vehicle*

### STEP 5D. FLOOR EXTENSION

The “Floor extension” offers superior protection to the rear seats when purchased in conjunction with a REAR PLUS option.

- The Floor extension is designed to attach to a Rear Plus version liner.
- It offers additional protection to the back of the front seats and the extended floor area when the rear seats are folded flat.
- The max width is 148cm (see photo on left).
- It will offer no protection to the rear doors

PLEASE REQUEST FURTHER INFORMATION AS YOU PLACE YOUR ORDER (*The Seat Flap 5A, The Bumper Flap 5C & The Floor Extension 5D cannot be added at a late date*)
