

CITROEN GRAND C4 PICASSO / SPACETOURER - 2014 on

ROW 3 FOLDED AND NOT USABLE

Our ref: Ho628

PACKAGING REQUIREMENTS.

BOOTLINER

- No additional fixings required

TAILGATE COVER

- **26 x tabs** self-adhesive loop fasteners

STEP 1. PREPERATIONS

- Remove the load cover. It may be replaced later.
- Fold the 3rd row seats flat, they will not be usable with the liner in use.
- Push the second row seats as far back to the tailgate as possible (**image A**)
- Set the second row seatbacks to their most upright rake. (**image A**), this allows for some dog guards to be fitted.
- Drop down the floor flaps attached to the 2nd row seat backs. (**image B**)

STEP 2. FITTING BASE

- Place the bootliner into the car boot with the Hatchbag logo at the seat end. Flatten the base so it fits snugly against the edges. The hook fasteners welded to the reverse face will weld directly to the carpet.

STEP 3. FITTING THE FRONT

- - **PLUS / SPLIT VERSION ONLY** - fasten the hook fasteners between the side panel and the seat panel. (image B)
- Starting with the middle headrest, loop the hook & loop fastener straps around both headrest posts. (image C). Make sure to hold the front part of the base in position as not to pull the Hatchbag too far up. Repeat the procedure with the left and right headrests.

REAR PLUS VERSIONS

You **MUST** unfasten the hook & loop fasteners + the headrest straps before you recline the rear seat uppers. (*Please refer to REAR PLUS options on website to see detailed photo*)

STEP 4. FITTING THE SIDES

- Tuck the 3rd row seatbelts into the plastic clips to secure them to the sides. (image D)
- Fasten the hook fastener sewn onto the top edge of the bootliner sides to the top edge of the carpeted boot sides. (image E) Tuck the top edge under the 3rd row seatbelt latch. (image F)
- Secure the rear sides of the bootliner by attaching the hook fasteners welded onto the bootliner directly to the carpet at the tailgate end. (image G)

OFFSIDE BOOTLINER

NEARSIDE BOOTLINER

OPTIONAL EXTRAS

Please note the following photos are non-specific to your vehicle

STEP 5A. SEAT FLAP

- The Seat flap is designed to protect the top of your rear seat giving additional protection from drooling dogs etc.
- The Seat Flap can also be used in conjunction with the **Rear Plus** Option(s). With the rear seats in the folded position the Seat Flap extends the coverage over any exposed section of the seat backs and the headrests
- Lower the headrests
- Attach the Seat Flap to the loop fastener strip that has been manufactured into the Boot Liner just below the top of the rear seats. (image 1)
- The flap is then placed over the rear head rests and down the back of the passenger seats. (image 2)
- If the Seat Flap sits over large headrests and obstructs your rear view: carefully create openings in the flap to accommodate the headrest posts.

STEP 5B. TAILGATE COVER

- Line up the tailgate cover with the tailgate and clean the areas where the self-adhesive fastener tabs will be stuck. (image 4)
- Use the self-adhesive loop fastener tabs to attach the cover to the plastic trim.

VERY IMPORTANT PREPARATION

To ensure a good bond, when using the self-adhesive hook & loop fasteners to attach the cover to the plastic trim it is most important to remove silicone film from the vehicle trim. Silicone is applied during manufacture and can also be found in many valeting products. It is **highly likely there will be a build-up of silicone**. Before applying any self-adhesive fastener pads, the surface **MUST be thoroughly** cleaned using a silicone remover. (The fasteners cannot be used once it has been in contact with silicone). We recommend "Intensive Tar Remover" made by AutoGlym and available from Halfords. Wipe off thoroughly **any residue with a separate clean dry cloth**.

OPTIONAL EXTRAS page 2

Please note the following photos are non-specific to your vehicle

STEP 5C. BUMPER FLAP

- Fit Boot liner
- Attach the Bumper Flap to the loop fastener strip that has been manufactured into the base of the boot liner.
- The Bumper Flap is one standard length for all models. Trim the length to suit your requirements. Ensure you do not cut through the stitching
- The Bumper Flap either folds into the vehicle OR can be detached and stored elsewhere when you close the tailgate.
- Please note that the edges of the fabric are not bound so that any mud, dirt or water can run off.

STEP 5D. FLOOR EXTENSION

The “Floor extension” offers superior protection to the rear seats when purchased in conjunction with a REAR PLUS option.

- The Floor extension is designed to attach to a Rear Plus version liner.
- It offers additional protection to the back of the front seats and the extended floor area when the rear seats are folded flat.
- The max width is 148cm (see photo on left).
- It will offer no protection to the rear doors

PLEASE REQUEST FURTHER INFORMATION AS YOU PLACE YOUR ORDER (*The Seat Flap 5A, The Bumper Flap 5C & The Floor Extension 5D cannot be added at a late date*)

STEP 5E. FREQUENT USE KIT

- If you frequently remove/fit your Boot Liner from/to your vehicle please note that the carpet will “fluff” up – we have an alternative “Frequent Use Fitting Kit”

The Frequent Use Kit is available to buy from our “on-line” Factory Shop – simply add it to your order from
