Polestar 2 - 2020 Onwards

our ref: H0808

FITTING KIT CONTENTS :

☐ **BOOT LINER**

- **2 x 400 mm** 30mm wide self-adhesive loop fastener

- **16 x frequent use tabs (Ref 113)** self-adhesive loop fastener

☐ **TAILGATE COVER**

- **16 x tabs** self-adhesive loop fastener

Ref:113

Rear Plus with Seat Split and Ski flap boot liner prepped for a seat flap & boot liner extension.

⚠️ VERY IMPORTANT PREPARATION 🧴

To ensure the self-adhesive hook & loop fastener stick to the plastic trim, you MUST CLEAN all grime from the plastic and REMOVE all SILICONE applied during manufacture and valeting.

To do this please:

1. Use a silicone remover, such as AutoGlym Intensive Tar Remover, and apply generously to the surface you want to adhere to.

2. Using a separate clean, dry cloth, thoroughly dry the surface until the cloth starts to drag. Attach one self-adhesive fastener tab to see if it sticks. (Repeat steps 1 and 2 if necessary.) Extra tabs have been provided.

3. Attach the self-adhesive fasteners and let them fully adhere over the next 24 hours for the best bond.

The self-adhesive fasteners cannot be used once they have been in contact with silicone. Replacement kits are available on our website.

STEP 1. PREPARATIONS

- Remove the load cover. It may be replaced later.

- Put the central headrest in its highest position.
  (Image A)

Image A

STEP 2. FITTING THE BASE

- Place the boot liner into the car boot with the Hatchbag logo at the seat end. Flatten the base so it fits snugly against the edges. The hook fasteners on the underside attach directly to the carpet.
  (Image B)

- Starting in the left-hand corner behind the rear seats, carefully peel back the base to expose the hook fastener and fasten one ref:113 to the exposed carpet, aligned with where the hook fastener is attached. (Image C)

- Repeat for all 8 hook fasteners on the base panel.

  NOTE: When temporarily removing the boot liner, peel the liner away from the ref:113 leaving it attached to the carpet. This will prevent the carpet fibres from fluffing up, reducing the functionality of the fasteners.

Image C

STEP 3. FITTING THE FRONT
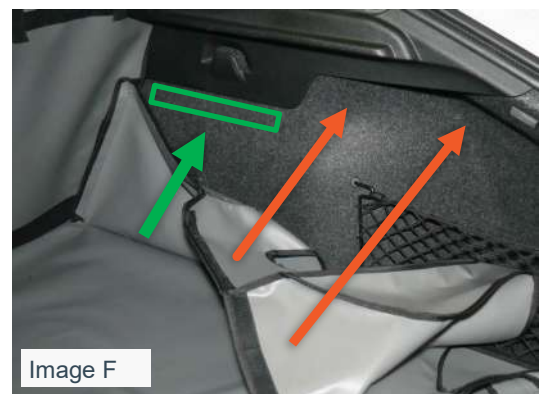

- PLUS / SPLIT VERSION ONLY - Fasten the hook & loop fasteners between the side panels and the seat panel. (Image D)

- Starting with the middle headrest, fasten the hook & loop fastener straps around both headrest posts. (Image E).

- Loop the elastic fastener straps around both headrests. (Image E). Make sure to hold the front part of the base in position to avoid pulling the boot liner too far up.

- REAR PLUS VERSIONS

You MUST unfasten the hook & loop fasteners and the headrest straps before you recline the upper part of the rear seats. (Please refer to REAR PLUS / SPLIT options on website to see detailed photo.)

STEP 4. FITTING THE SIDES

- The side panels of the boot liner are attached directly to the carpeted area on the sides of the boot. Align the hook fasteners along the top edge of the boot liner side panel with the edges of the carpeted area. (Image F)

- For a more secure fit, we have included 8 frequent use tabs (ref.113) that have hook fastener on one side and loop on the other. These are placed between the carpeted sides of the boot area and the boot liner. We recommend using these on the green highlighted area of the boot area (green arrow - Image F)

Image F

STEP 5. FITTING THE BACK

- Stick the (400mm fastener) to the panel located on either side of the lock at the tailgate end of the boot area. Snip the self-adhesive fastener strips at the corners to ease around the curve.

- Attach the boot liner to it using the hook fastener on the liner. (Image G)

OPTIONAL EXTRAS

Please note: not all of the photographs are specific to your vehicle.

STEP 6A. SEAT FLAP & TAILORED SEAT FLAP

- The Tailored Seat flap is designed to protect the top of your rear seat giving additional protection from drooling dogs etc. (Image 1)

- Lower the headrests

- Attach the Tailored Seat Flap to the loop fastener strip on the Boot liner just below the top of the rear seats. (Image 2)

- The Rectangular Seat Flap is designed only to be used in conjunction with the **Rear Plus/Split.** With the rear seats in the folded position this flap extends the coverage over the exposed section of the seat backs and the headrests. (Image 3)

STEP 6B. TAILGATE COVER

- Line up the tailgate cover with the tailgate and clean the areas where the self-adhesive loop fastener tabs will be stuck. (Image 4)

- Use the self-adhesive loop fastener tabs to attach the cover to the plastic trim.

STEP 6C. BUMPER FLAP

- Install the boot liner

- Attach the Bumper Flap to the loop fastener strip located at the base of the boot liner. (Image 5)

- The Bumper Flap either folds into the vehicle OR can be detached and stored elsewhere when you close the tailgate.

OPTIONAL EXTRAS PAGE 2

Please note: not all of the photographs are specific to your vehicle.

STEP 6D. BOOTLINER EXTENSION

The Bootliner extension provides superior protection for the rear seats when purchased with a REAR PLUS option.

- The Bootliner extension is designed to attach to a Rear Plus/Split version liner.

- It provides additional protection for the back of the front seats and the extended floor area when the rear seats are folded flat.

- It does not offer full protection to the rear doors

- Attach the Bootliner extension to the main boot liner (Image 6)

- Fasten the two ties in the corner together (Orange arrows - Image 7)

- Fasten the hook & loop fastener straps around the headrest posts. (Blue arrows - Image 7)

- Fasten ties to the corresponding rear seat striker loop (Green arrow - Image 8)

- Repeat on opposite side

Please Note: the Seat Flap, the Bumper Flap & the Bootliner Extension cannot be added at a later date.

STEP 6E. FREQUENT USE KIT

- If you frequently remove/install your boot liner from/to your vehicle, please note that the carpet will "fluff" up – we offer an alternative Frequent Use Fitting Kit. These tabs are placed between the boot liner and the boot carpet.(Image 9 & 10)

The Frequent Use Kit is an accessory available to purchase from our on-line store.
